The REPUBLICAN has double the circulation of any other daily newspaper in this territory, and is the only one issued every day in the year.

Preferred Locals 10 cents per line first insertion, and 5 cents per line each subsequent insertion.
All Contracts and bills for advertising payable monthly.

STALEY MISS EWING.
She is Nearly Eight Feet in Height.

It may be stated, without fear of dispute, that Miss Ella Ewing, of Fairmount, Clarke County, Mo., is the possessor of bigger feet than any other woman in the country, writes a *Globe-Democrat* correspondent. The young lady, who is now but 18 years of age, ordered last week a pair of shoes from the Tennant-Stirling Company, and they are now very nearly finished. These shoes are the largest ever turned out in St. Louis. The last over which they were constructed measures 15 1/2 inches in length and 4 1/2 inches in width at the ball of the foot. There is enough leather in one of the heels to build five pairs of ordinary ladies' shoes. And the leather in each shoe would be sufficient, if it all could be utilized, to make thirty pairs of ordinary shoes. A. W. Foote, who made the last, states that within the period of eighteen years' experience in the shoe business he has never seen anything to quite equal Miss Ewing's foot. It took him a day and a half to look up the timber and when he finally secured a large enough maple block to hew the last from he was obliged to fill out the instep with leather.

Miss Ewing, the young lady who will wear the shoes when they are entirely constructed, is the daughter of a farmer at Fairmount, and it is understood, spent the early part of her life in the woods in the vicinity of Chicago. Her height is seven feet ten inches, and her weight 225 pounds. She is, therefore, rather slender for her height. The young lady has been in the habit of having her shoes made by a cobbler in the country place near where she lives, and the latter evidently had not been fitting her as well as he should. One of her old shoes, which was sent here with the order for a new pair, is a rather crude conception of what a shoe should be, and the way it has been worn would indicate that the young lady had corns. But such is not the case, as those state who know her and her feet.

Miss Ewing wanted the new shoes made next week in order that she might make a creditable appearance in St. Louis during the coming festivities.

REDONDO HOTEL
Redondo Beach, Cal.

This new and magnificent hotel was opened to the public May 1st. It is the most thoroughly equipped and best furnished house on the Pacific Coast. Two hundred and seventy-five rooms, replete with every convenience; fire, place, hot and cold water, incandescent lights, electric call and return system. Standing in the center of a twenty-two-acre tract, under high cultivation, two hundred feet back from the ocean bluff. Are lights on the grounds. Finest surf bathing in America. The house has a fine Otis elevator and by far the handsomest music and dancing hall in California. The dining room is a perfect gem of artistic perfection, superbly furnished and so arranged that every seat commands a view of the ocean. There is a gallery at one end, where a fine band plays for the evening dances; also playing on the veranda in the morning. In the music and dancing room in the morning. The music and dancing room at night. Morning geraniums will be a feature of the house. The cuisine will also be a prominent factor. The house and surroundings are simply perfection—new, sweet and clean—and must be seen to be appreciated. The Atchison, Topeka and Santa Fe runs six trains daily from Los Angeles. The company own their own railroad, running to Los Angeles, connecting with the Grand Avenue cable system, running twelve finely equipped trains daily each way, landing passengers right back of the hotel. There is a pier, where boats make regular landings. Steam and sailing yachts can be had. The fishing is the finest on the coast. There is a bluff and interior drive, commanding a fine view of the ocean, San Gabriel valley, Wilson's Peak, Old Baldy, Sierra Madre range of mountains. Terms same as other first-class houses. Special rates for permanent and families. All letters address to the manager.

E. W. ROOT, Manager.

HOFF OF TUCSON

BELOW IS A CUT OF THE TERRITORIAL RENOWNED CHARLES F. HOFF, COMMONLY known as HOFF, OF TUCSON. Mr. Hoff is Manufacturer's Agent and Merchandise Broker, with headquarters at Tucson. He is the gentleman that has acquired the windmill question so much, the results of which are being seen all over the Territory, and which is turning the barren deserts into blooming gardens.

THE AERMOTOR WINDMILL
Shows an increase of 55 per cent in power over all other mills. The wheel is entirely of STEEL. Sun, Rain or Storm therefore have no effect on the same. It is sold with or without TILTING TOWERS. FIXED TOWERS are the cheapest, but the TILTING TOWER is the most convenient; same being the wheel down to the ground for oiling. Think of it: the wheel comes down to you.
The AERMOTORS have from 4 to 16 inch strokes. Three revolutions of the wheel to one stroke of the pump allows it to start up easier under a heavy load, and runs when other wheels are idle, not being "quite" sufficient wind to run other mills. The wheel itself being so LIGHT, runs so much faster when started, and thus gains more in speed than it loses in the stroke. But these are only a few reasons why the AERMOTOR is superior in Power, Construction and Durability to all other wind-motors. However, so far as the power of the wheel is concerned, the greatest gain in power is due to the structure of the wheel itself. To specify ALL the reasons for this would be too tedious. Suffice it to say that this claim is based on numerous dynamometric tests on more than sixty different wheels, and that the AERMOTOR has been submitted to long and applied practical tests, in conjunction with the leading wind-motors of the country, and it has been proven by actual trial and measurement that the 2-foot Steel AERMOTOR will pump more water in the same time, in any kind of wind, and will do the same work in lighter wind than the best of 10-foot wooden wheels made. The AERMOTOR WIND ENGINE, without exaggeration, is the greatest invention of the nineteenth century, and every home in Arizona should have one, as a home without a windmill is like a library without books, a home without a soul.

CHARLES F. HOFF, Agent, Tucson, Arizona.
